

**Letter in-lieu of electrical inspection for temporary electrical service**

(may only be used for temporary services where the authority having jurisdiction does not inspect temporary electrical services.)

**Customer or Project Name:** \_\_\_\_\_

**Service Address:** \_\_\_\_\_

**City / Town:** \_\_\_\_\_

**Important notice**

It is the customer’s responsibility to assure that all facilities on the customer’s side of the point of delivery of electricity are maintained in safe operating condition. This responsibility includes assuring that the customer’s temporary electrical facilities comply with all local construction codes and safety standards. Customers should coordinate this responsibility with their architectural and engineering consultants, construction contractors, or subcontractors, as appropriate, before their temporary electrical systems are energized. Failure to do so may result in injury or damage resulting from unsafe conditions. AES Indiana is not responsible for unsafe or non-compliant conditions on the customer’s side of the service point.

**Customer’s Certification of Readiness**

The undersigned customer or its authorized representative do hereby certify to AES Indiana and agree that:

1. he has read the foregoing notice and fully understand the customer’s obligations for operating safety;
2. he has conferred with the architect, engineering consultant, general contractor, or subcontractor(s), as applicable and appropriate, responsible for the design and construction of the facilities, to verify that the electrical systems on the customer’s side of the point of delivery have been constructed to the best of their knowledge in compliance with local construction and safety standards (including, for example, the Indiana Electrical Code);
3. he has determined and confirmed to the best of their knowledge that the electrical systems do in fact comply with these local construction and safety standards;
4. he understands and agrees that in reliance of these representations, AES Indiana has agreed to energize electric service to the customer’s temporary service entrance at such facilities;
5. he assumes full responsibility for any and all damages and injuries that may occur to the customer’s property, employees or members of the public or other third parties as a result of conditions on the customer’s side of the point of delivery at the temporary service address noted above; and
6. he hereby releases AES Indiana from any and all damages, or injuries that may result as a result of the temporary electric service provided by the AES Indiana provided that the temporary service meets the applicable requirements of the National Electrical Safety Code (NESC) and the standards of the Indiana Utility Regulatory Commission.

If not the owner/customer, I certify that I have the owner/customer's permission to act in his stead.
